ABOUT NILESH PATEL

Nilesh Patel – Managing Director N.K.Proteins Pvt. Ltd.

Leaders not only dream big, but are people of action. For over two decades, Nilesh Patel was the brand Tirupati with a relentless “Can Do” determination. A seasoned professional with over 25 years of experience in the Edible oil industry, Nilesh Patel was a leader par excellence and responsible for accelerating the growth and development of Tirupati. He had spearheading the business right from operations and management to marketing-related activities and revenue generation. He along with his brother Nimish Patel has taken the brand Tirupati to a higher pedestal, setting a trail of successes, milestones, and landmarks.

His successful track record in building a strong portfolio, making the business profitable, and achieving market growth objectives, was the reason Tirupati enjoys the largest market share in cottonseed oil. As a true leader, he took pride in his team and believed in collaborative leadership, building a winning team, and following the motto of “Excel to Exceed”. He was also a doting father to his married daughter.

His deep understanding of the edible oil industry as well as the consumer & business landscape led the brand Tirupati to become a household name today.
